 Lahore, Pakistan

## About Me

I am a quick learner with problem-solving skills and a natural aptitude for coding. I have a good hold of programming fundamentals and am proficient in languages such as Python and C#. I am also familiar with web development technologies such as MERN stack and mobile applications development using technologies such as Flutter. I have also played a role of team lead several times during term projects.

## Education

### BS. Computer Science (Continue) (2020 - 2024)

University of Engineering and Technology  
Lahore, Pakistan

## Career Objectives

As a programming student, I am actively seeking opportunities to contribute my expertise to a dynamic company. I aspire to collaborate with a team of seasoned professionals and enhance skills and gain hands-on experience.

## Skills
